

Put yourself in the driver's seat.

When you see your buddy taking unnecessary risks, step up, step in and take control. The decisions you make, even when you're off duty, can mean the difference between life and death.

That's Composite Risk Management (CRM), looking at everything that can take you or your buddy down and take you out of the fight.

Every loss affects readiness. So take control now and Own the Edge.

Don't be the one who lets your buddy down.

Be the one who makes a difference.

TAKE CONTROL

What you do right now makes a difference.

When it comes to **Army loss rates,**
hundreds of Soldiers are
breaking new ground.

The facts are shocking. The numbers are staggering. One Soldier dies every nine hours. This is your wake up call.

Composite Risk Management (CRM) is the most effective way to reduce accidents, decrease fatalities, and improve your Soldiers' readiness so they can be more aggressive by making better-informed risk decisions.

CRM takes your Soldiers who are on the edge and enables them to Own the Edge, no matter where they are in the fight.

Take control now by practicing CRM.

And help your Soldiers stand on more solid ground.

TAKE CONTROL

What you do right now makes a difference.
